

RISER ADAPTER

Description

Provides the ability to easily create a water source for 1/4" tubing under any sprinkler with a 1/2" inlet. Ideal for supplemental watering of remote plantings that were previously under irrigated and for easily watering potted/hanging plants using an existing sprinkler with a 1/2" inlet as the water source. Available with either one or two 1/4" barbed outlets.

Features

- Moveable barb outlet to desired orientation
- Molded of high grade ABS material
- Available with either one barbed outlet (RPRA 250-1)
Or two barbed outlets (RPRA 250-2)

Specifications

- 1/2" FPT inlet by 1/2" MPT outlet
- Barb fits 0.160" OD - 0.170" OD tubing
- Overall length of fittings is 2.25"
